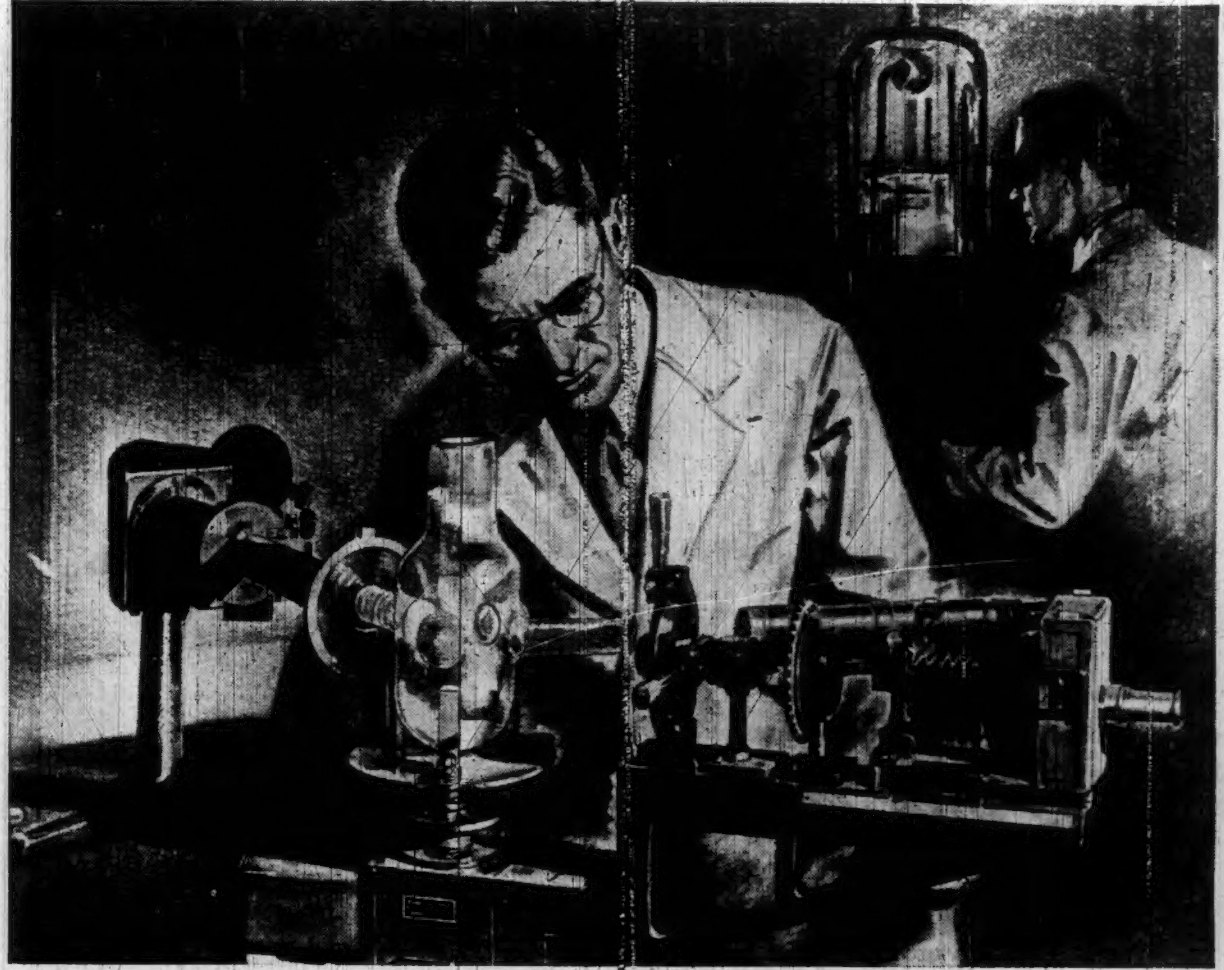
Is it 9732 *...or* 9372

It's funny how easy numbers can get transposed in one's mind. Even telephone numbers that you frequently call sometimes get mixed up. When they do, and you make a guess as to what the right number is, you all too often find you've called the wrong person.

That's annoying to the person you've called and to you, too, because you've wasted time. ● But such wrong numbers can be avoided, easily. Just make this a rule—when in doubt, consult the telephone directory. You'll save time, if you do.

NEW YORK TELEPHONE COMPANY

Here's Why Americans Have *"The Best Telephone Service in the World"*



Finding new things, and better ways of doing old things, has been the secret of success in the development of the telephone in America.

From the invention of the telephone in 1876, this research work has grown steadily until now the Bell Telephone Laboratories have 2400 scientists and trained technicians. From this never-ending search for improvements, spring the advances in speed, clearness and dependability that benefit every Bell telephone user.

Besides meeting civilian needs, the Army and Navy has always been provided for. Under the National Defense Program this technical knowledge of the Laboratories is being used even more actively than in the past.

Thus as the nation's defenses are perfected, the Bell System contributes the indispensable research of the Laboratories, the vital distributing functions of the Western Electric Company and the coordinated action of all the Bell Telephone Companies from coast to coast.

NEW YORK TELEPHONE COMPANY

FEB. 1942

Look in the directory first—

Most of the time you'll find the telephone number you want listed in your telephone directory.

If by chance it isn't listed there, the Information Operator will be glad to give it to you.

But—be sure to look in the directory first.

⅓ *of a* MILLION *is* Quite a Family

Yes, it's a big family—the 344,000 employees in the Bell Telephone System. And it has to be big to give service to more than 18,000,000 Bell telephones in America.

A family of individuals, working with a single purpose—to give the people of the United States and the Army and Navy the best telephone service in the world. Plant men putting up poles, laying cable, extending the lines of communication. Operators putting through your calls. Scientists, in the Bell Laboratories, constantly striving to improve telephone equipment. Employees in our business offices—workers in Western Electric factories—all of them working in a united effort.

The force of the New York Telephone Company totals about 40,000 men and women—they are folks like yourself, your neighbors, your friends. All bound by tradition and by years of training to see that the message goes through, the service carries on—in everyday life and in times of emergency.
